

Visualization of Model Predicting Cumulative Utterances (Group by Risk Level)

Chunyen

2024/3/13

Introduction

視覺化逐句累積輸入時模型預測的表現。

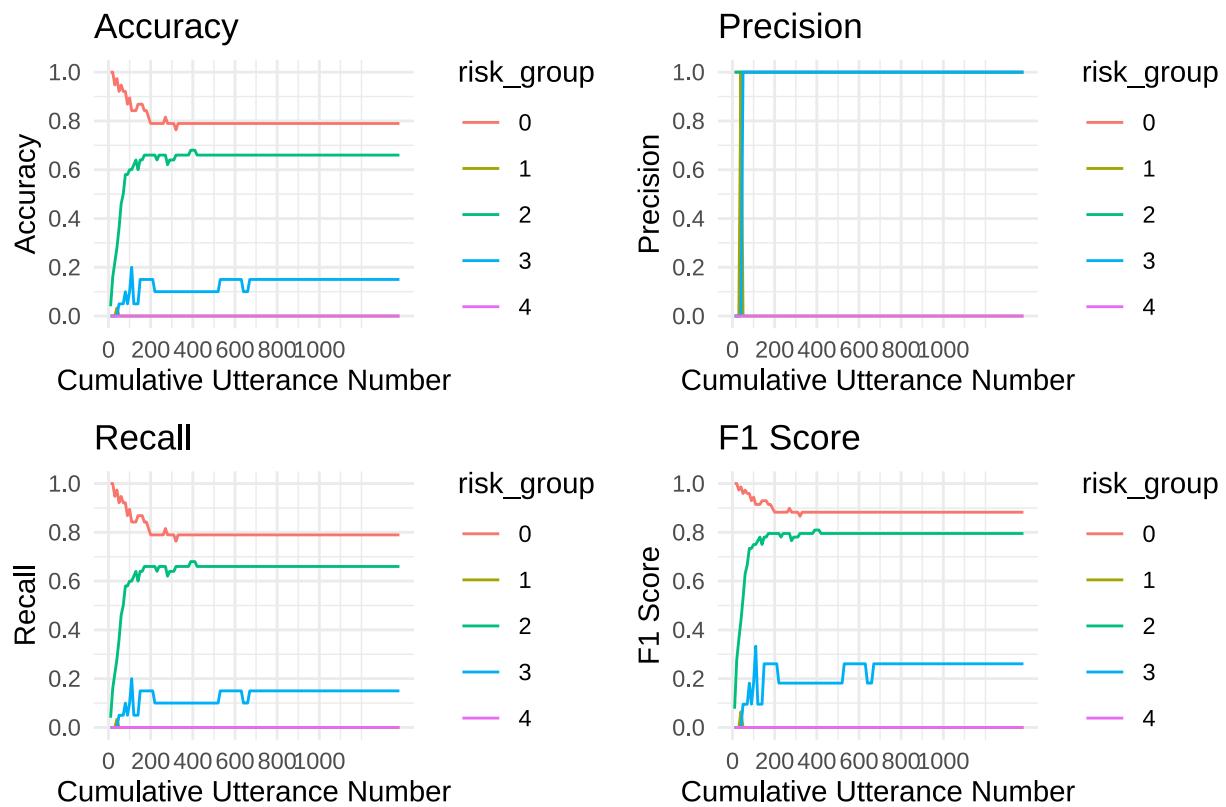

依照自殺風險分組。

Function

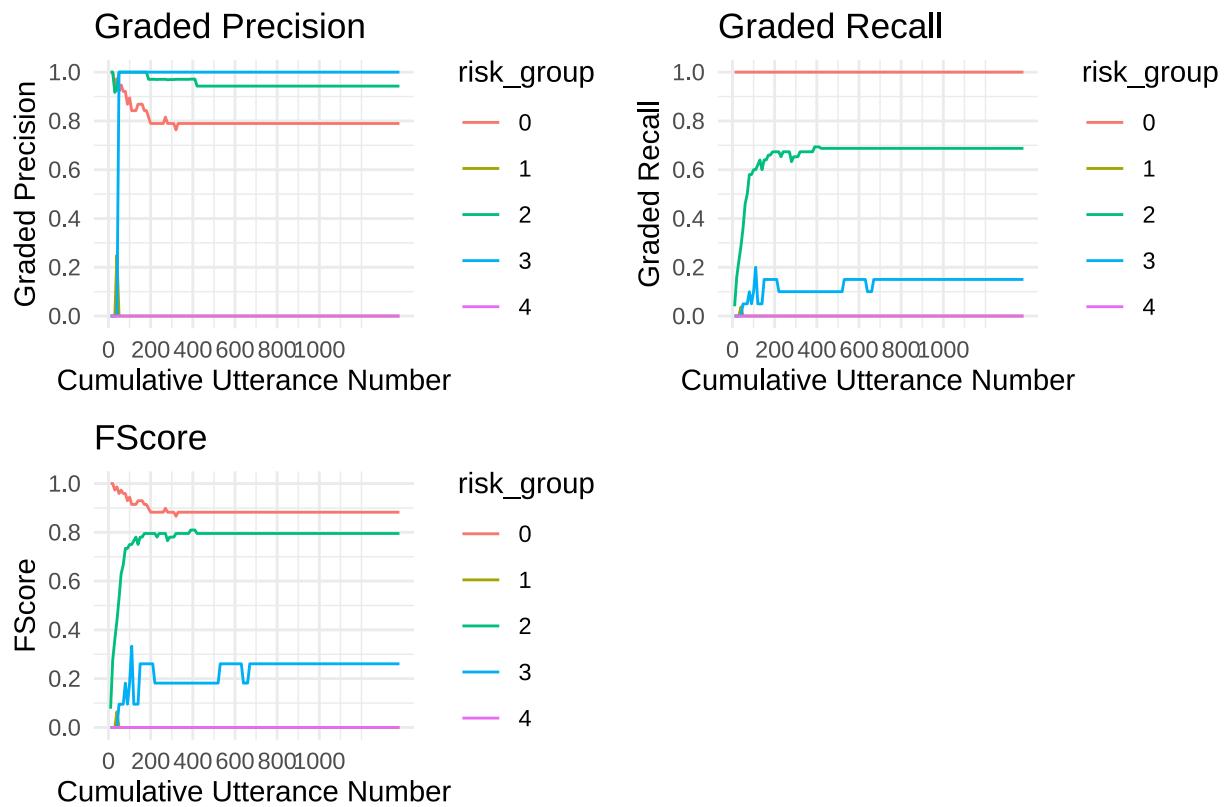

Risk5 X RF Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

RF Model Metrics Over Cumulative Utterances (Risk5)

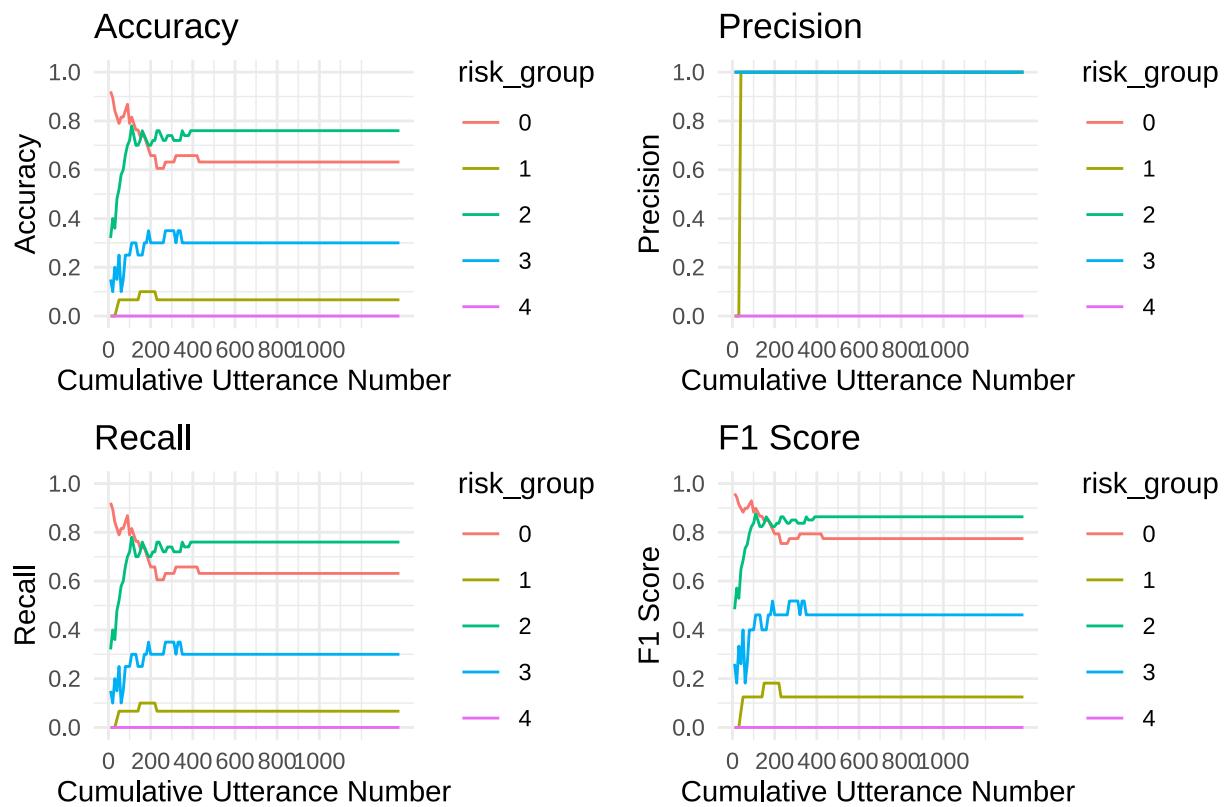

RF Model Graded Metrics Over Cumulative Utterances (Risk5)

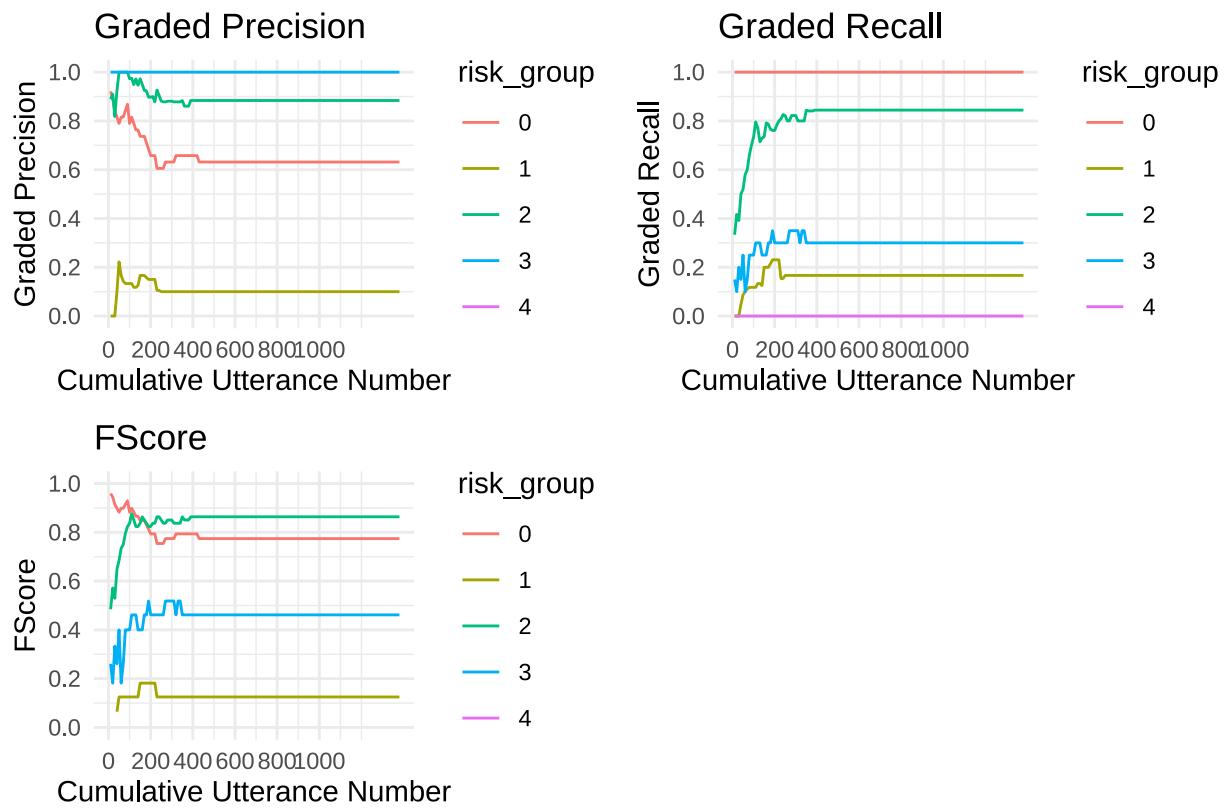

Risk5 X BERT Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

BERT Model Metrics Over Cumulative Utterances (Risk5)

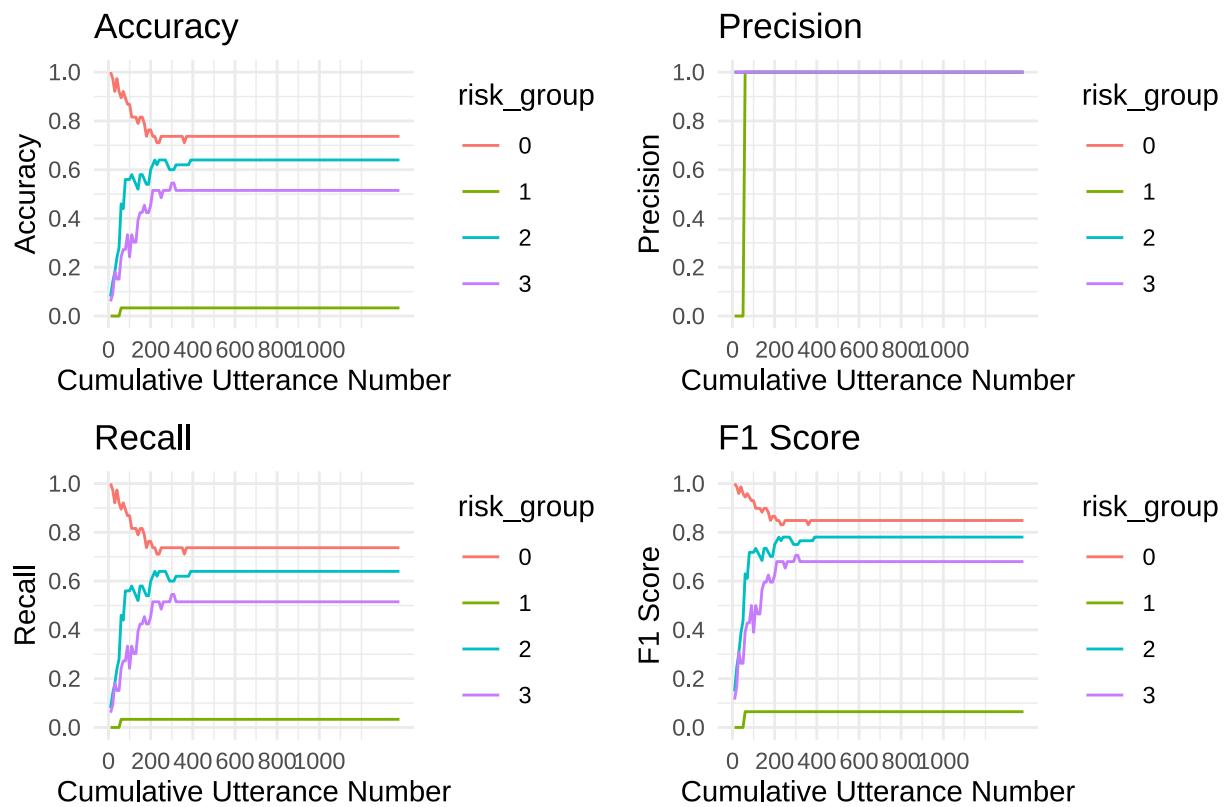

BERT Model Graded Metrics Over Cumulative Utterances (Risk5)

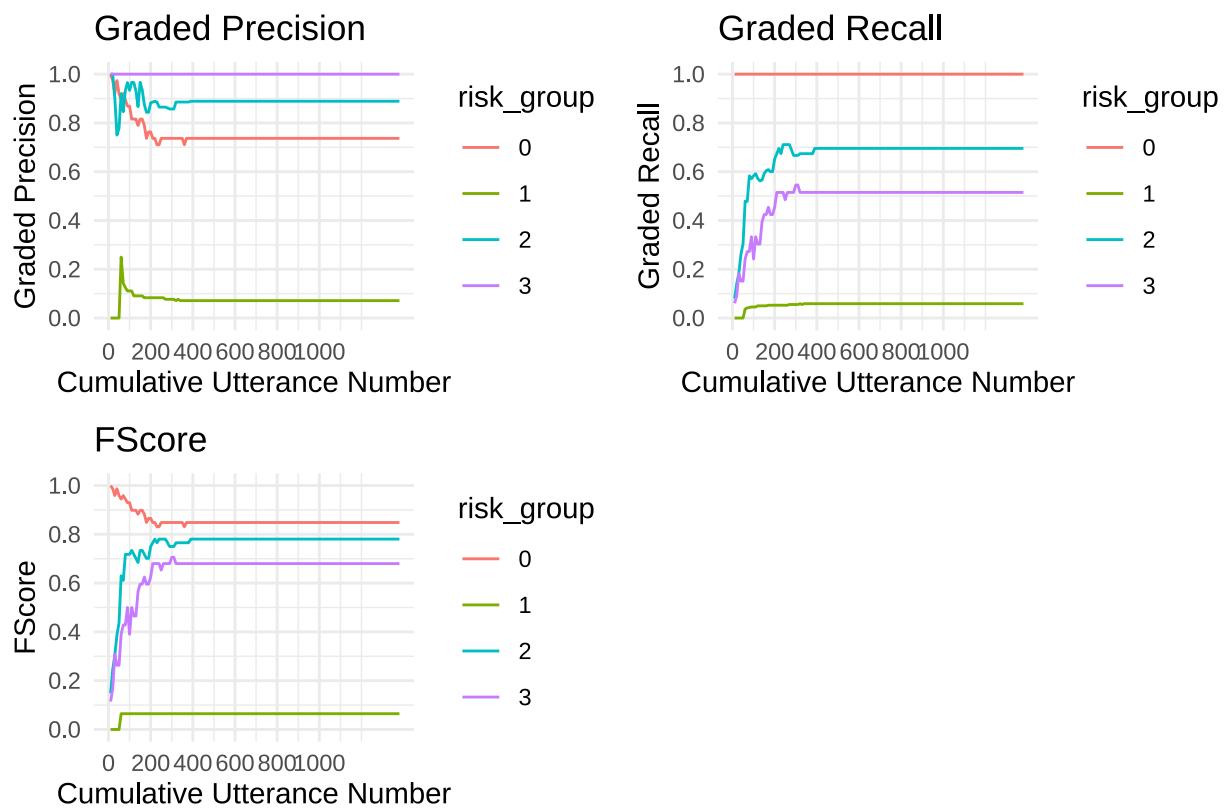

Risk4 X RF Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

RF Model Metrics Over Cumulative Utterances (Risk4)

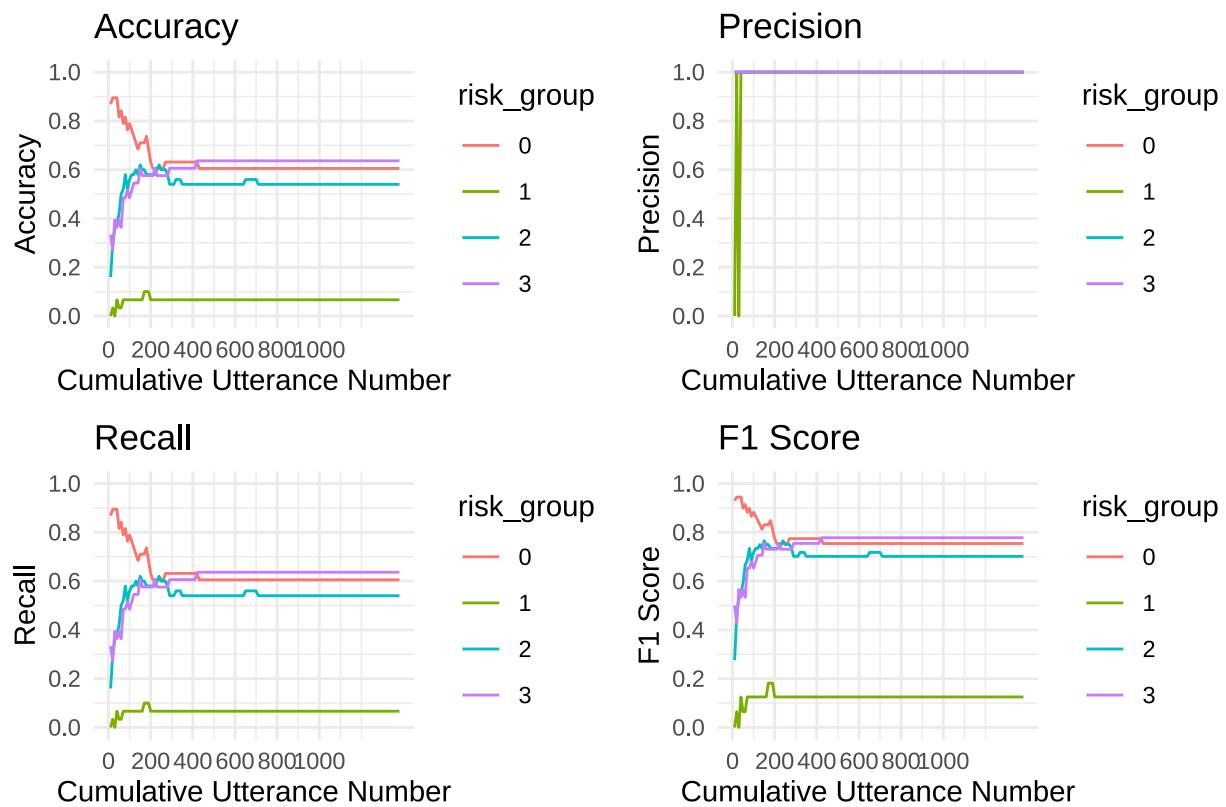

RF Model Graded Metrics Over Cumulative Utterances (Risk4)

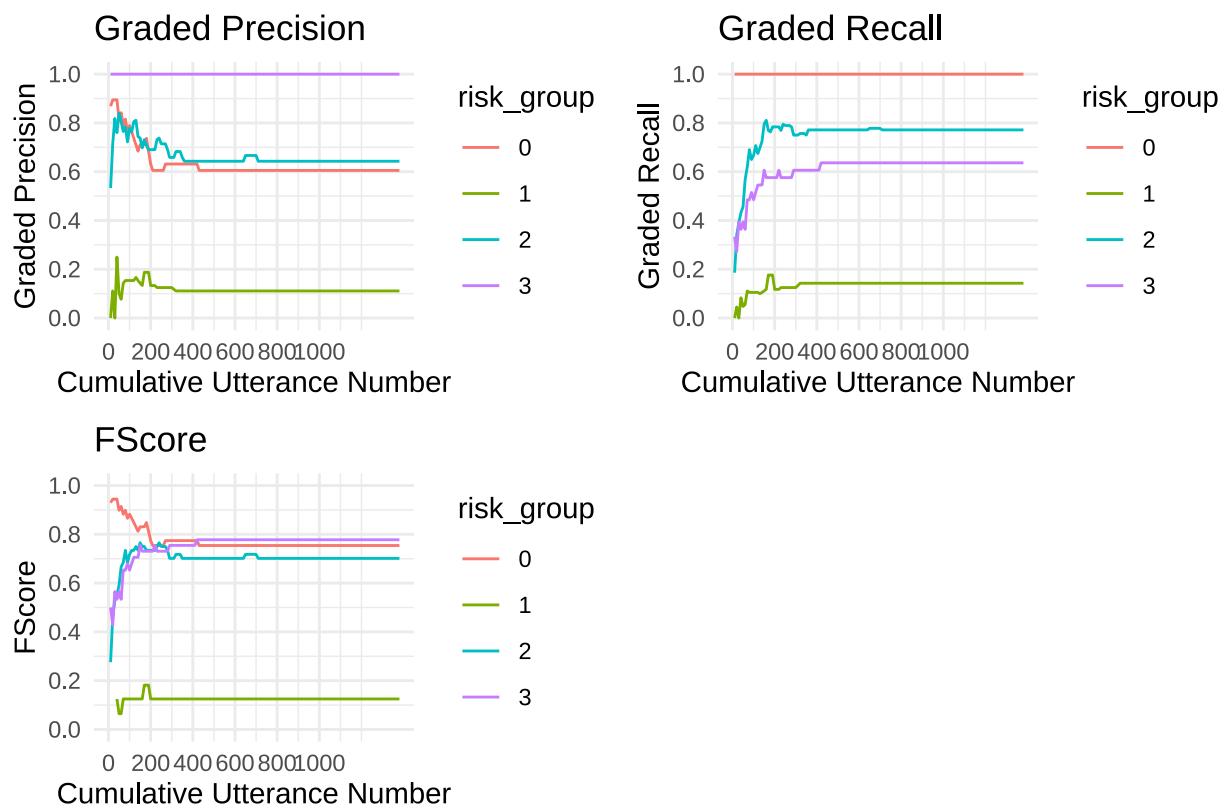

Risk4 X BERT Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

BERT Model Metrics Over Cumulative Utterances (Risk4)

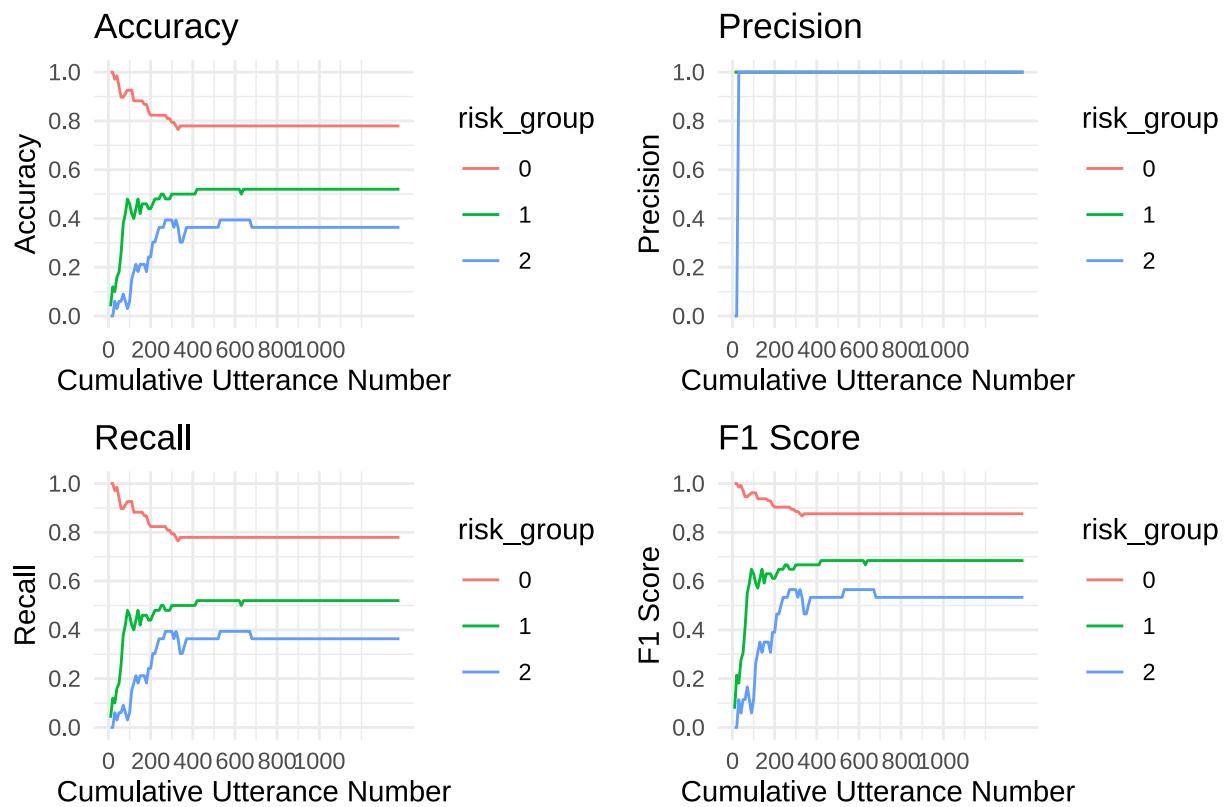

BERT Model Graded Metrics Over Cumulative Utterances (Risk4)

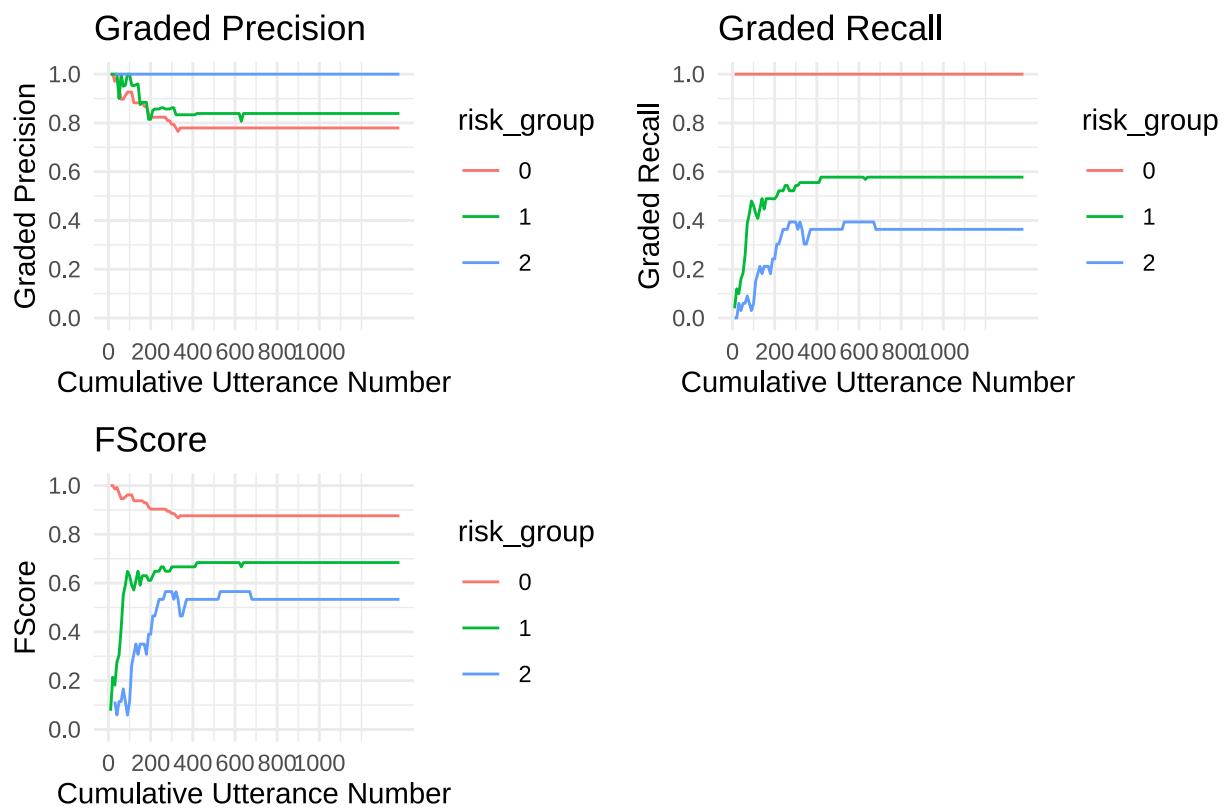

Risk3 X RF Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

RF Model Metrics Over Cumulative Utterances (Risk3)

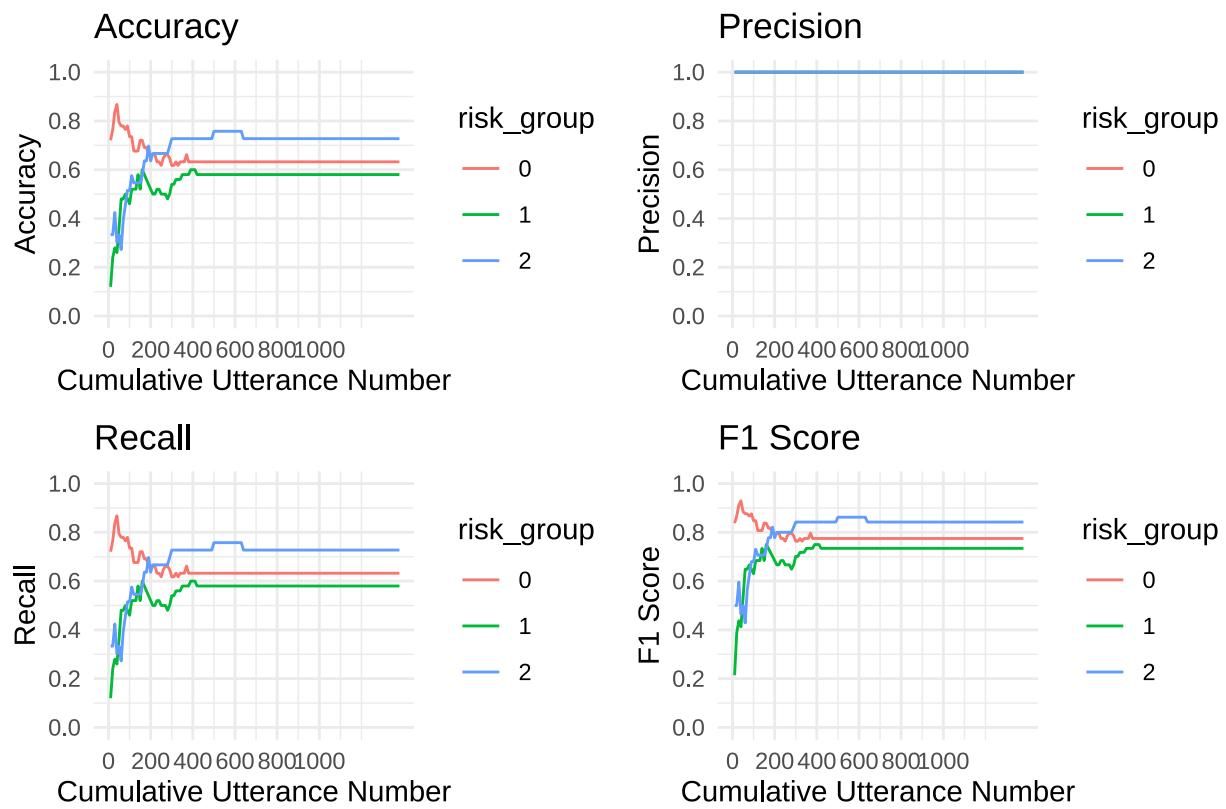

RF Model Graded Metrics Over Cumulative Utterances (Risk3)

Risk3 X BERT Model

```
## `summarise()` has grouped output by 'risk_group'. You can override using the
## `.`groups` argument.
```

BERT Model Metrics Over Cumulative Utterances (Risk3)

BERT Model Graded Metrics Over Cumulative Utterances (Risk3)
